DETAILED ACTION

Allowable Subject Matter

Claims 1 - 6 and 8 - 10 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent **claim 1**, the prior art of record fails to teach or fairly suggest wherein the operation speed of the first drivable part can be selected only in steps, and the operation speed of the second drivable part can be selected in non-steps; wherein the speed selector selects a specific operation speed for the first drivable part from selectable operation speeds of the first drivable part, the specific operation speed being an operation speed at which the operation to the target position can finish within the target operation time; and wherein the controller calculates an anticipated operation time needed until the operation of the first drivable part to its target position at the specific operation speed finishes, and lets the operation of the first drivable part start when a waiting time corresponding to a time difference between the anticipated operation time and the target operation time has passed after the start command time in a case where the anticipated operation time is not matched to the target operation time; in combination with other elements of the claim.

Regarding **claims 2 - 6**, these claims are allowed as being dependent from allowed independent claim 1.

Regarding independent **claim 8**, the prior art of record fails to teach or fairly suggest the limitations as discussed in claim 1 above; in combination with other elements of the claim.

Regarding **claim 9**, this claim is allowed as being dependent from allowed independent claim 8.

Regarding independent **claim 10**, the prior art of record fails to teach or fairly suggest the limitations as discussed in claim 1 above; in combination with other elements of the claim.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
